

ALCO[®]

Sales & Service Co.

The ultimate in durability, these units are designed for applications where multiple **M7, M9, C, D, & E** size cylinder transport, storage or manifolding is required. Individual spacing, positive cylinder placement and weight distribution allows for easy handling on uneven or irregular surfaces. The all-welded steel construction of angle iron and steel round bar insures greater durability and strength.

AL-50226

HEIGHT: 42" DEPTH: 15"
WIDTH: 18" WEIGHT: 30 lbs.
CYL. CAP: 6

WHEEL NO: W-11
10" SOLID RUBBER

All products can be ordered in Red and/or Yellow finish for certain storage compliance regulations. An additional cost will apply.

For RED finish add
"R" to end of
part number

For YELLOW finish
add "Y" to end of
part number

SOUND DEADENING KITS

"Makes delivering cylinders completely invisible to the ears"

We have developed an exclusive sound deadening system for multiple cylinder carts, used to distribute cylinders in and around hospitals, rest homes, convalescent homes etc. or where **QUIET** is essential.

These sound deadening kits include heavy-duty sound deadening matting & plastic bumper guards. This formula eliminates the rattling & clanging of steel & aluminum cylinders while in transport.
