## 1-800-323-4282

- 1 Stratos Top Cover** is waterproof and can be easily wiped clean or replaced. Stratos fabric reduces shear forces and prevents Moisture Vapor Transmission.
- 2 Highly Resilient Top Layer** of cushioning materials conforms to subtle bony prominences creating a perfect blend of pressure reduction and bariatric patient comfort.
- 3 Transfer Edging** High Resiliency Foam ensures reinforced stability to support heavier patients when sitting bedside. Relief Cuts help the Gentle Giant bend & flex with the bed.
- 4 Supportive Layer** allows the resident to descend into a second layer of pressure reducing foam.
- 5 Firmer Base Layers** support patients weighing 350 – 800 lbs.
