

TECHNICAL SPECIFICATIONS	AL-84683 Single Button Pendant
<ul style="list-style-type: none">• Water-Resistant• Worn as a neck chain or on belt• Optional wrist band available• Fully supervised• LED transmission indicator• User replaceable lithium battery• 3 minute or 60 minute check-in	

DESCRIPTION:

The AL-84683 is a single button wireless pendant transmitter, which features a one second press and hold for activation to prevent false alarms.

The AL-84683 uses 900 MHz spread spectrum technology and has an open field range up to 4976 feet. Water-resistant pendant can be worn in the shower or bathtub. Pendant can be worn around the neck with the supplied chain or on the belt loop and can be easily converted to wear on the wrist with the optional wristband clip

LISTING:

Tested to meet UL 2560 standards when used with UL2560 listed components under File E157381.

AL-84683-03 = 3 minute supervision transmissions

AL-84683-60 = 60 minute supervision transmissions

For UL 2560 installations, transmitters must have a minimum check-in time of 60 minutes.

Operation is fully supervised to monitor operation and battery life and will append any trouble messages to call or check in transmissions. All trouble messages to be reported on the Sentry Freedom software. The battery is a user replaceable 3.0 Volt lithium battery.

INDICATORS:

LED flashes with all transmissions, including supervision.

SPECIFICATIONS:

Dimensions: 2.2 x 1.9 x 0.72"

Weight: 1.4 oz

Power: 3.0V Lithium Battery included
CR2450, typical battery life: 1 -2 years

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The wireless pendant transmitter shall be AL-84683 supplied by ALCO Sales & Service Co. It shall be capable of using the 900 MHz EchoStream technology for frequency transmission. The AL-84683 shall include an LED indicator to confirm call transmission and supervision check-in status. The AL-84683 wireless pendant transmitter shall be capable of sending supervision check-in and low battery warning and reported on the Sentry Freedom software. The AL-84683 shall include a neck chain, belt clip and 3 volt lithium battery. The AL-84683 shall be able to withstand contact with water and be worn in the shower.
