

SINGLE PATIENT USE

GreenLine®/D™ All-Metal Blades

5 YEAR STERILITY

Beaded blade tip on Macintosh helps reduce tissue trauma during intubation

Fiber optic bundle is protected in a pliable plastic sheath; emits clear LED illumination for tissue visualization

Constructed of non-painted 303/304 surgical stainless steel

Two ball bearing design in the heel for secure metal-to-metal attachment with handle

Low profile design preferred by clinicians

Not Made with Natural Rubber Latex

STERILE EO
