FASTENED
WITH
BOLTS**

(Competitor uses
adhesive tape)

**POWDER
COATED &
BAKED TO
A DURABLE
ENAMEL
FINISH**

THE BUTTRESS' PATENTED ADVANTAGE

No kneeling (or cursing) by the custodial staff to adjust the leg for cleaning the floor.

The Buttress' exclusive spring loaded hinge allows support leg to swing inward toward the wall as light pressure is applied with the mop. The spring then auto-returns the leg to the resting position ready to support the next 1000 pound plus patron.

Do you have the right nuts?
The Buttress *Universal Installation kit* includes two of these nuts. They have been the solution to many wall hung toilet installations. Keep several of them in your tool box for your next install!

ORIGINAL PROBLEM:
STANDARD FLANGE NUTS DO NOT
REACH ONTO THE BOLT

FAIL

INNOVATIVE SOLUTION:
BUTTRESS EXTENDER FLANGE NUTS
REACH INTO THE BOLT

SUCCESS
