

Lift Assist IV Poles

AL-67889

Top:

- Available with 4, 8 or 28 Hook top
- Weight limits for top portion:
 - Total weight capacity 60lbs.
 - Maximum 25 lbs. per hook
- 1.25" Diameter upper pole adjusts from 56"-96"

Pole:

- All exposed parts clad in 304 Stainless Steel to prevent rust and corrosion.
- Handle sits at a comfortable height to easily adjust upper portion of pole.

Base:

- 24" diameter base for stability
- 3" scuff resistant casters
- Rubber bumpers on leg ends protect facility walls
- Base is constructed of epoxy coated steel for strength and resistance to corrosion.

Cleaning Instructions:

Clean frequently with warm water and a gentle detergent or disinfectant. Do not submerge any parts in liquid. After cleaning wipe down with a clean damp cloth to remove cleaner completely. Dry completely with a soft dry cloth. Can be wiped with non-chlorine disinfecting wipes between uses.

Note: Avoid Chlorine wipes and strong abrasive cleaners as they will leave a residue and can cause damage to the stainless steel finish. Also avoid abrasive or rough cloths and sponges as they can alter the finish of the stainless steel.

Improving life.
