

Folding Walker Storage System

"Our innovative wall-mounted walker rack provides a new solution for improved folding walker storage."

Whether you practice in a prominent hospital serving hundreds of patients or a small skilled nursing facility, our product's versatility provides the premier rehabilitation equipment storage you need.

Folding Walker Storage System

- ◆ **Space Saver** The compact, raised and vertical assembly of your folding walkers on the walker rack opens up a potential space for floor storage.
- ◆ **Sanitary Solution** Decrease disease transmission by storing your folding walkers off the ground and within minimal contact of other walkers.
- ◆ **Patient Priority** Provide superior care to your patients by ensuring they receive their modified and sanitized walker without the long wait.
- ◆ **Efficient** With 180° of possible rotation, locating and maneuvering the folding walker you need takes less time and effort.
- ◆ **Low Maintenance** Once your walker rack is installed, it doesn't require any maintenance for the duration of its use in your facility.
- ◆ **Easily Accessible** The vertical suspension of your folding walkers on the walker rack makes leg and wheel modifications a breeze.
- ◆ **Simple Installation** Installing the walker rack is hassle-free as it arrives fully assembled and is mounted directly into the wall.
- ◆ Holds 10 folding walkers individually
- ◆ 44"L x 11.5"H x 5"D
- ◆ 19 lbs.
- ◆ Mild steel construction
- ◆ Grey powder coat finish
- ◆ Mounting hardware included
