

AL-85729

Wireless Column Scale
with capacity up to 660
pounds

EMR-integrated

- Network-capable with 360° wireless technology.
- Heavy duty cast iron base is slip resistant with an anti-tip column design.
- BMI, TARE, Auto-HOLD, mother/child-Function, adjustable damping.
- Includes stadiometer with 1/8 inch division and measuring range up to 90 inches.
- At the press of a button, measured results can be wirelessly transmitted to an EMR/EHR system or 360° wireless digital printer.

The multi-talent with network capability.

When weight, height and BMI have to be obtained, the new AL-85729 can do it all for toddlers to obese adults. The AL-85729 with integrated stadiometer is a complete measuring station that can measure both weight and height in just one time-saving step. Measurement data from the AL-85729 can be transmitted via the 360° wireless technology to an EMR/EHR system, the software analytics on your PC or to the 360° wireless printers.

The scale's 660 pound capacity can handle anything.

Overweight or obese patients can easily step onto the large and flat platform of the AL-85729. Thanks to the scale's solid cast-iron base and the platform's slip-proof ribbed rubber coating, nothing wobbles or threatens the patient's secure stance.

Pre-TARE, mother/child function, HOLD and Auto-HOLD speed up the weighing process.

Do you want to deduct the stored weight of the patient's clothing, for example, from the patient's weight? Just press Pre-TARE. Or do you want to weigh a child in his parent's arms? Use the mother/child function. You can quickly store a weight to read-out later with the Auto-HOLD function.

Paperless and error-free wireless transmission of measurements.

With the 360° wireless technology, the AL-85729 can transmit all measurements to an optional 360° wireless permitting paperless and error-free wireless transmission of measurements. The 360° wireless technology lets the AL-85729 transmit all measurements to an optional 360° wireless printer. The network-capable software analytics or the emr flash with USB Adapter can receive and analyze measurements sent to your PC and forward them to an existing Electronic Medical Record (EMR) system. This capability makes the AL-85729 EMR-integrated and ready to handle all the EMR requirements expected in the future.

AL-85729

Technical Data

- Capacity: 660 lbs / 300 kg
- Graduation: 0.1 lbs < 330 lbs > 0.2 lbs / 50 g < 150 kg > 100 g
- Dimensions (WxHxD): 14.2 x 94.1 x 20.5" / 360 x 2,390 x 520 mm
- Platform (WxHxD): 13.2 x 3.1 x 13.6" / 335 x 80 x 345 mm
- Measuring range: 3 – 90" / 6 – 230 cm
- Weight: 38.8 lbs / 17.6 kg
- Power supply: batteries / power adapter (optional)
- Data transmission: 360° wireless technology
- Functions: TARE, Pre-TARE, mother/child function, HOLD, Auto-HOLD, BMI, Auto-CLEAR, damping, automatic switch-off, kg/lbs switch-over, SEND/PRINT
- Optional: switch-mode power adapter 400
- System compatible with: 360° wireless printer advanced, 360° wireless printer, software analytics and emr flash, 360° wireless USB adapter, stadiometers

It's very easy to read the numbers printed on the side of the stadiometer.

Equipped with the 360° wireless technology, the AL-85729 can transmit measurements to an optional wireless printer or to the software on your PC.
