**Product Specifications** (overall external dimensions):

- 17.00"W x 36.06"H x 17.00"D (43.2 cm x 91.6 cm x 43.2 cm)
- 14.6 lbs (6.6 kg) approximated

#### Mounting Specifications:

# Installation

Always mount dispensers securely prior to loading with product.

## Parts included:

- Column
- Base
- Hardware

• (8x) Screws: (4x) for stand, (4x) included to attach companion product (Phillips type 10-32 x 5/16")

#### Tools Required:

Phillips screwdriver

# Care and Construction

Powder-Coated Steel

# **Material Characteristics**

**Designed for Long-Term Use** 

Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature.

Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service.

# **Care and Cleaning**

For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a non-abrasive cloth. Standard hospital cleaning supplies can be used. Dry with a soft cloth. Do not use any solvent-based materials, abrasives (e.g. Scotch-brite, steel wool), or apply excessive force during cleaning.

## **Companion Products (each sold separately):**

• AL-89798-0233, Respiratory Hygiene Station - Locking

## **Related Products (sold as kits):**

#### Cover Your Cough Compliance Kit
