Care and Construction

ABS Plastic

Material Characteristics

Designed for Long-Term Heavy-Duty Applications

The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness.

ABS is chemical and stress-crack resistant. It is tough, dimensionally stable, and will hold up to long-term use. It possesses high strength and performance characteristics at a reasonable cost.

Care and Cleaning

Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used.

Standard hospital cleaning supplies can be used.

Care and Construction

Polycarbonate

Material Characteristics

Designed for Long-Term Use

Polycarbonate plastic is a polymer comprised of Bisphenol A and phosgene, which makes it shatter resistant and provides an excellent combination of strength, rigidity, and toughness. It is a frosted, lightweight, tough, dimensionally stable thermoplastic. It is also temperature and humidity resistant and will perform exceptionally under heavy, long-term use.

As polycarbonate is virtually unbreakable, it is safe to use in areas where it may be exposed to impact. These qualities make it perfect for a wide variety of applications, including medical and laboratory equipment.

Frosted polycarbonate plastic makes an attractive display. The transparency allows the viewer to see content, read text, and see true colors through the material.

Care and Cleaning

Resistant to stains, polycarbonate is easily cleaned with common cleaners or mild soap and water. Alcohol is recommended to remove grease or oil. Ammonia and acetone should not be used.

Fauxwood ABS Plastic

Material Characteristics

Designed for Long-Term, Heavy-Duty Applications

The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness. The fauxwood finish is ARVINYL laminate created from a semi-rigid film.

ABS is chemical and stress-crack resistant. It is tough, dimensionally stable, and will hold up to long-term use. To ensure product longevity, fauxwood products should not be mounted in very hot or cold areas.

Care and Cleaning

Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used.

Standard hospital cleaning supplies are approved for use on our ABS plastic products.
