

MADE
IN THE **USA**

Product Description:

- Physical Barrier - Suction Cup - Medium
- Wide base provides stability
- Attached suction cups for mounting to a flat surface
- Suction cups may be removed and replaced with screws for a more permanent solution
- Clear Acrylic

Primary Area for Product Usage:

- Anywhere a barrier is needed

Package Specifications:

- Package Quantity: 1 per case
- 20"L x 6"W x 25"H (50.8 cm x 15.2 cm x 63.5 cm)
- 4.0 lbs (1.8 kg) - approximated

Product Specifications (overall external dimensions):

- 4.25"W x 18.00"H x 23.50"D (10.8 cm x 45.7 cm x 59.7 cm)
- 3.7 lbs (1.7 kg) - approximated

Mounting Instructions:

- Clean surface to attach
- Press to adhere
- Lift edge of suction cups to release suction and remove

Care and Construction

Acrylic

Material Characteristics

Designed for Durable, Transparent Applications

Acrylic is a clear, impact and weather-resistant material consisting of methyl methacrylate polymers (PMMA). It is often used as a glass replacement due to its strength and transparency.

Clear optical characteristics mean the viewer can see the content, read text, and see true colors through the material.

Care and Cleaning

Most cleaning chemicals do not weaken the surface or cause damage to the material. Suggested cleaning method is to use a soft cloth, warm water, and mild soap.

Do not place in direct sun.
