Empowering Responders to Help In A Heartbeat

When cardiac arrest strikes, simplicity and speed are critical. Optimize your team’s lifesaving efforts with the ZOLL AED Plus.

- Easy-to-understand audio prompts and visual icons complement the American Heart Association’s Chain of Survival
- Compression depth indicator that provides real-time visual guidance during CPR
- Adaptive metronome designed to help rescuers provide compressions at an adequate rate
- Automatic self-testing helps ensure a state of readiness
- IP55 can withstand conditions like extreme temperature, altitude, vibration, and shock
- Off-the-shelf lithium batteries (Duracell 123a) with a 5-year battery life
- Intelligent pediatric capability: pediatric electrodes can be purchased separately for children up to 8 years old or weighing less than 55 pounds
