

## THE AL-72850

# DIGITAL PLATFORM SCALE WITH EXTRA WIDE HANDRAILS

The all-digital AL-72850 is the industry leading bariatric scale that supports up to 1000 pounds and provides the optimum in quality, reliability, and ease of use. The extra wide "live" handrails allow the patient to hold on for stability while the scale accurately calculates weight. Designed to meet the needs of doctor's offices, hospitals, clinics, and acute and long-term care facilities, the scale's keypad features antimicrobial protection, a display head that swivels 180 °, a large non-skid low profile platform, and wheels that enable portability.

The scale's high-contrast color screen provides a user friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pre-tare and more. The exclusive Everlock<sup>®</sup> function allows the measuring unit (LB or KG) to be permanently locked on the scale. The scale provides easy integration and seamless communication with today's EMR applications, the AL-72850 includes a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter<sup>®</sup> Professional Connectivity Solutions.

## THERE'S STRENGTH IN OUR NUMBERS.

When you add up the numbers on our scale, it's not surprising that the AL-72850 is the industry leading bariatric scale.
