The LIBERTY BED™

The Liberty Bed provides you with the key features you want at a very affordable price point.

Strong, no-sag grid deck sleep surface with sturdy cross braces.
Safe work load: 450 pounds*

- **Height travel range: 9" to 24.4"**. With a standard 6" mattress, this positions the bed at an ideal height for the caregiver and for transfers.

- **One bed can be used for 76" and 80" lengths** using the adjustable brackets to meet space limitations and improve inventory management. No extension kit is necessary.

- **Resident friendly, quiet, smooth operation** keeps bed level and balanced at all times using three DC motors.
- **360 degree mobility** at ANY height – can move from room to room at any height, and move over thresholds at even the lowest position.
- **Mattress retainer** is standard.
- **Reinforced, robust base** is designed for support yet provides sufficient underbed clearance, ideal for using overbed tables and patient lifts.
- **Easy assembly** requires only a screwdriver.

Keyed Wall Saver is standard – easily moves over thresholds during transport, yet automatically falls back into place to protect your walls. Wallsaver adjusts easily when modifying bed from 76" to 80" and when using a trapeze.

Pendant Hand Control

Easy operation contoured Hand Control Pendant is shock-resistant, water-proof and durable. Holster conveniently secures to bedrails and assist devices for easy access.

Highest Safety and Quality Standards

Built to conform to UL 60601-1 and IEC601-2-38, CAN/CSA C22.2 No. 601.1 the Liberty Bed offers the following ensuring the utmost resident and staff safety:

- No pinch points within 200mm of bed perimeter.
- Rolling clearance of 20mm over thresholds.
- Splash-proof electronics.
- Load capacity and tip-stability testing.

SilverSolutions within the powder-coating provides antimicrobial surface protection.

SilverSolutions inhibits the growth of organisms that can detract from the appearance and coating functionality:

- Inhibits the growth of bacterial odors
- Resists stains caused by mildew
- Resists stains caused by mold

SilverSolutions preserves the cured coating during the service life of the bed.

ALCO Sales & Service Co. makes no independent representations or empirical statements about SilverSolutions. This information is reprinted from: TCI Powder Coatings, EPA Guidance for EPA Registration 40 CFR 152.25

ACCESSORIES & OPTIONS

Optional Trapeze Adapter and Trapeze attaches easily to headboard to position trapeze within easy reach of residents.

Optional Extension kit Extends sleeping surface from 80" to 84".
