

## The PrimeMat 2.0

ALCO is proud to introduce our Second Generation Fall Mat. The PrimeMat 2.0 has been designed to meet and exceed the original PrimeMat's performance characteristics. With the redesigned non-skid bottom surface and the low-profile beveled edges, the new PrimeMat 2.0 has raised the bar for injury mitigation.

### Egg Drop Tested;

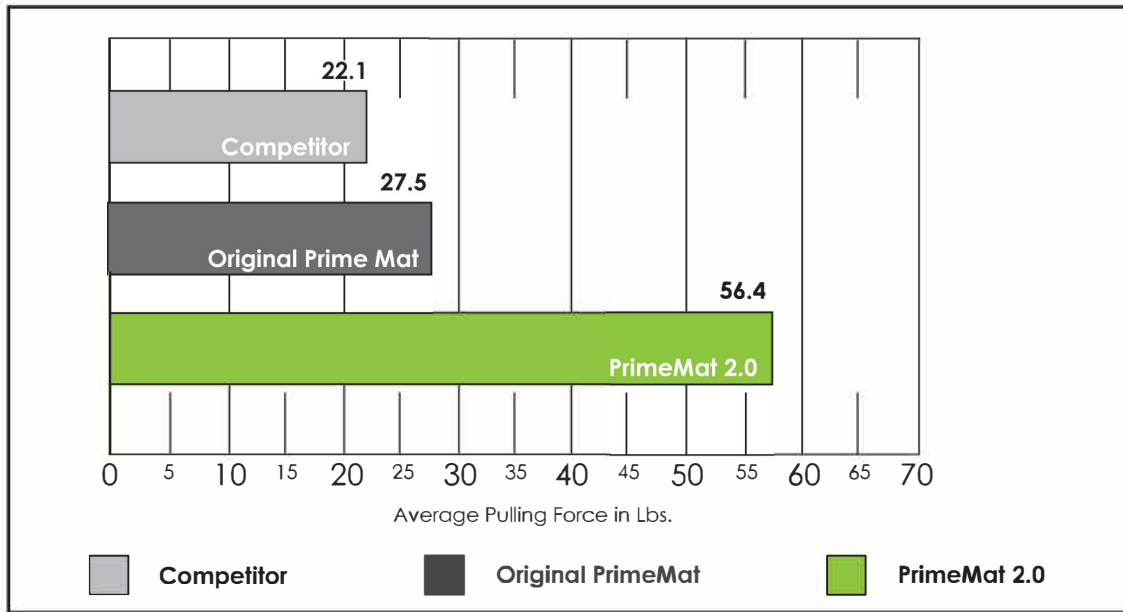

An egg drop test is performed by dropping an egg from 5ft. Upon contact of the fall mat, the egg should bounce and sustain from breaking, thus passing the test.

Available in Gray and Brown.

## Quick Specs

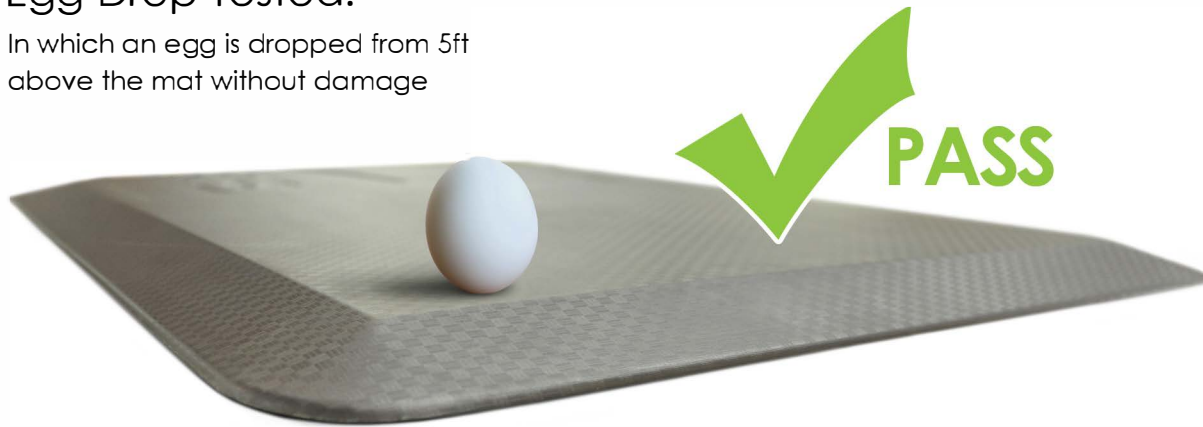

- 70" wide x 24" deep
- Low profile and beveled edges
- Non-Skid Bottom reduces tripping hazards
- Passed 5 foot egg drop test
- More cost effective than leading brands
- Available in brown and gray

Non-Skid Test : The higher the number, the greater the NON-SKID properties!

### Egg Drop Tested!

In which an egg is dropped from 5ft above the mat without damage

### Actual Height

3/4"
