

AL-83472 Replacement Remote Control for **Compatible with LG® Commercial TV's**

Including Hospitality TV's with portal function & Healthcare TV's including Multi (bed)-Code TV's

This remote will operate all of the above TV's, right out of the box, just add batteries (For most applications).

Uses 2 AAA batteries and has optional screw for battery cover

For Healthcare Multi (bed)-Code application please see below.

The Multi (bed)-Code function allows independent operation of multiple televisions in close proximity; it requires televisions or STB with this capability.

IMPORTANT

Before proceeding, please insure that your TV has the Multi (bed)-Code feature and the TV has been set to the appropriate Multi (bed)-Code setting. You will need to refer to your TV's manual for TV Multi (bed)-Code setup instructions.

For Multi (bed)-Code Remote Control Setup: Press and hold "OK" button on the remote and the desired Multi (bed)-Code number button (1-9). The light on the remote will light for a few seconds, and then turn off indicating the command has been accepted. Check the remote functionality

Note: To restore the remote to the factory (default) setting, press and hold "OK" button and the number "0" button. The light on the remote will light for a few seconds, and then turn off indicating the command has been accepted.

For LG® DVD units press the DVD button at the bottom. To switch back to LG® TV functions press TV button at the top

AL-83472 is Compatible replacement for LG® remotes including these and many more:
