

AL-85740 & AL-85741

Ergonomic Measuring Tape

AL-85740

AL-85741

- Retractable measuring tape for precise body measurements.
- WHR calculator for quick determination of body fat distribution (only AL-85740).
- WHR scale of metal for long life (only AL-85740).

Two high-quality medical products.

If you're in search of a measuring tape that is a cut above the rest, then look no further. The AL-85740 and AL-85741 have high quality mechanics with millimeter markings that accurately measure to five millimeters.

AL-85740:

The AL-85740 also has an extra instrument to calculate the Waist-to-Hip Ratio (WHR). This ratio is an indirect method of determining the amount of fatty tissue in the abdomen and consequently, the distribution of fat reserves. The high quality scale is made of metal so that you'll be able to depend on this valuable additional function for a long time.

Millimeter graduation for accurate measurements.

AL-85741:

The AL-85741 is a true medical product. It's very easy to pull out the tape, which just as easily clicks back into place. Handling is extraordinarily convenient. Made of durable materials, the scale features a tape with a top measurement of 205 centimeters and its own low weight of only 50 grams.

Display to determine body fat distribution.

AL-85741
High-quality materials for precise functionality.

AL-85740 & AL-85741

Technical Data

AL-85740:

- Measurement range: 0 – 80" / 0 – 205 cm
- Division: 1mm
- Diameter: 70 mm
- Height: 28 mm
- Weight of device: 0.2 lbs / 70 g
- Function: WHR calculator

AL-85741

- Measurement range: 0 – 80" / 0 – 205 cm
- Division: 1 mm
- Diameter: 70 mm
- Height: 22 mm
- Weight of device: 0.1 lbs / 50 g
