

AL-87945 Tilt-Recline Bariatric Chair

ALCO[®]
Sales & Service Co.

The AL-87945 is a great choice for tilt and recline positioning. Separate manual hand lever controls enable the reclining back and seat tilt to function individually. The seat surface is metal pan covered with four-inch fabric covered high density foam and is removable if needed. Front riggings are available in footrests and elevating legrests. An optional full width padded leg support and full width footboard are available. Removable full length arm rests are standard. Dimensions and specifications are shown on the back of this page.

Reclining back in the upright position and seat in reverse tilt position.

Reclining back in the full recline position and seat in reverse tilt position.

Reclining back in full upright position and seat in forward tilt position.

Push handle and manual control levers.
Two levers to control back recline and two
levers to control seat tilt.

Back upholstery features adjustable straps
to allow upholstery to conform to the user..
