

Wheelchair HANDLE EXTENSIONS

It's time to *stand up* with ALCO's Bullhorn Wheelchair Extensions!

with
Handle
Extensions!

Provides a comfortable hand position and posture no matter the height of the user.

model is 6'11"

Makes more room behind wheelchair for O2 holders and other equipment.

Standard wheelchairs have no leverage - forcing you to hunch over to gain control of the chair. This puts stress and fatigue on your back, shoulders and wrist.

ANTI-THEFT

Often a cart, I.V. Pole or O2 stand must accompany the patient. Seamlessly hold onto both objects with more comfort and control.

Free!

WHEELCHAIR HANDLES

ALCO will send you a pair to evaluate at your facility. Yours to keep!

- » Anti-theft
- » Lower worker comp claims
- » 10 year warranty
