

BEAM® ADD A PANEL ASSEMBLY INSTRUCTION

- 1.** Connect both halves of your BEAM® Screen ADD A PANEL by inserting the ends of the smaller tubes into the ends of the larger tubes. (Keep both hinges on the same side when assembling)
- 2.** Take your assembled BEAM® Screen and separate the top and bottom sections at the end to which you are adding a panel.
- 3.** Slide the assembled BEAM® ADD A PANEL Screen hinges onto the open ends of your screen.
- 4.** Reconnect the top and bottom halves of your original Screen.
- 5.** Your Screen with the added panel is now ready for use and can be folded with the other sections.
